

AMANDA ESMERALDO

FRONTEND ENGINEER

PREVIOUS POSITIONS

Frontend engineer | Frontend Platforms

Casa Magalhães | July 2020 - present

- Build scalable and accessible frontend applications using JavaScript and TypeScript across Vue and React ecosystems.
- Collaborate with cross-functional teams to evolve design systems, shared libraries, and reusable component architectures.
- Improve application reliability through testing strategies, accessibility standards, code reviews, and performance optimization.
- Contribute to frontend architecture and back-for-front solutions with a strong product and user experience mindset.
- Work closely with product, design, and engineering teams in Agile environments, driving continuous improvement initiatives.
- Leverage AI-assisted workflows to accelerate development, documentation, prototyping, and problem-solving.
- Combine technical execution, design sensitivity, and product thinking to deliver intuitive and maintainable user experiences.

Keywords: JavaScript, Vue.js, Vuex, Pinia, React, ES6, CSS, SCSS, Jest, Yarn, NPM, CI/CD, LLM, Claude, AWS, Node.js, Java, SCRUM, GitFlow, MongoDB, Postgres, REST, Firebase, Design System, Figma, Webpack, Vite, Typescript.

Frontend developer | Angular Environment

G4Flex | May 2019 - July 2020

- Developed front-end applications using Angular 8 and React
- Tested front-end code in multiple browsers to ensure cross-browser compatibility
- Created and implemented a custom CSS grid system, with media queries for mobile responsiveness for PWA
- Consulted and documented UI best practices and code standards. Full experience with Git and Gitflow
- Participated in projects in all stages of the product life cycle
- Ensured current and future application functionality and scalability
- Worked as a Mid frontend developer

Frontend developer | Angular & React

CPQi Group | January 2018 - April 2019

- Developed front-end applications using Angular 4+ and React
- Worked with team and client to define job requirements, being allocated on the clients' companies
- Working with API's built in Node.JS and C# on the backend
- Worked as a Junior frontend developer

PROFILE

I am a front end engineer who runs on CSS and coffee. 8+ years experience on how to innovate and be creative when it comes to user-friendly interfaces. No fear when in trouble, I do love a challenge ✨

WHOAMI

I'm a new mom who loves to travel, collect vinyls, bike runs and working out. I enjoy some strong (not-so-casual) cup of coffee and fruits. I keep myself updated and motivated by seeing other's people work and achievements.
